PROFESSIONAL SUMMARY

Interested in the role of Software Engineer where I can contribute my technical, analytical and knowledge acquired by pursuing my degree in Software Engineering

TECHNICAL SKILLS

C | C++ | Python
Data Structure & Algorithms
Machine Learning:Pandas | Numpy | MatPlotLib | Scikit Learn
Web Development(BASIC):HTML | CSS | NodeJS | API

INTERPERSONAL SKILLS

Decision Making | Team Collaboration | Team Cooperation | Deep Thinker | Consistent

INTERESTS & HOBBIES

Trading | Investing | Book Reading

LANGUAGES KNOWN

English | Hindi | Urdu (Read & Write)
Arabic (Read)

TECHNICAL SUBJECTS

Computer Networks | Operating System | DBMS | OOPS

EDUCATION

B.E in Computer Science | Chandigarh University,Gharuan, Punjab
Session: 2020-2024 | Score: ***8.08 CGPA***

Intermediate (CBSE) | Children Senior Secondary School, Azamgarh, UP
Session: 2018-2019 | Score: ***7.50 CGPA***

Matriculation (CBSE) | Children Senior Secondary School, Azamgarh, UP
Session: 2016-2017 | Score: ***7.8 CGPA***

PROJECTS

Heart Disease Detection using Machine Learning(python): [GITHUB Link]
A **classification model** which detects whether a person have heart disease or not with a **88% of accuracy**
Tools Used: Pandas | Matplotlib | NumPy | Scikit Learn
Final Model Used: Random Forest Classifier *FEB 2023*

Flowerence Website: **[Host Link]**
A Hospital website where you can register, send message and donate using HTML5, CSS3, BOOTSTRAP5, JAVASCRIPT *JULY 2023*

Spam Mail Detection using Machine Learning(python): [GITHUB Link]
A **classification model** which detects whether a mail is spam or not with **100% of precision and 97% accuracy**
Final Model Used: KNN

MARCH 2023

Bulldozer Price predictor using Machine Learning(python): [GITHUB Link]
A **regression model** which predicts the price of Bulldozers **with 0.88 r square score**
Final Model Used: Random Forest Regressor *April 2023*

ACHIEVEMENTS

- **Solved 420+ Data Structures problems** of GFG **[Proof Link]**
- **Ranking at 169h Position** at GFG(DSA Problem Solving-Institute Rank) **[Proof Link]**
- Qualified Persistent system coding round 2023
- Cracked **CodeKaze**(by coding ninjas) first round 2023
- Developed and curated **150+ GFG DSA solutions** with detailed explanations on GitHub **[GitHub Proof Link]**
- Qualified Wipro Technical Round, 2022

CERTIFICATIONS

- Learn C++ Programming -Beginner to Advance by Abdul Bari (Udemy)
- Mastering Data Structures & Algorithms using C and C++ by Abdul Bari (Udemy)
- Complete Machine Learning & Data Science bootcamp by ZTM
- **CodeKaze** Participation certificate by coding ninjas, June 2023
